

J.J. Curran Crane Company has been in the crane and lifting equipment business since the early 1950's. When you call J.J. Curran Crane you can be sure you will receive high quality equipment and service. We are the only crane rental company in Michigan that can offer you a complete selection of Hydraulic and Rough Terrain Cranes.

For more than five decades we have worked to bring our customers a fleet of equipment that is second to none. To do this, we constantly reevaluate our customers' needs and invest in the latest technology.

Our fleet consists of hydraulic and rough terrain cranes from five to 300 tons. Combine this with our unique ability to supply mobilifts, boom trucks, and shooting boom fork lifts, and you will agree: J.J. Curran Crane Company is the only company that can handle all of your lifting needs.

- Rough Terrain Hydraulic Cranes
- Hydraulic Truck/All Terrain Cranes
- Boom Trucks
- Shooting Boom Forklifts
- Mobilifts
- Carry Decks
- Moon Buggies, Dump Buckets

J.J. Curran Crane's equipment is meticulously maintained and offers the muscle and flexibility to handle the most challenging jobs. We provide a complete selection of hydraulic cranes from the 5 ton carry deck models to the 300 ton capacity truck crane. We can also supply you with everything in between, including, a fleet of all-terrain machines from 22 to 300 tons, and rough terrain cranes from 5 to 100 tons.

"... It's nice to have a supplier that can help you spec a unit, deliver the service, and do a quality job. Once I contract you, I don't have to concern myself with that aspect of the job again. . . You can count on my continued use of your equipment and most importantly, personnel."

- Ron Davis, Royal Arc

J.J. Curran Crane offers a full range of equipment that includes specialty rigging equipment such as mobilifts, boom trucks, and shooting boom forklifts. If your company's job requires multiple types of equipment, you can satisfy all of your needs with one call.

We offer our equipment fully maintained and operated or as a bare rental depending on the job's requirements. With the necessary insurance coverage, the client may provide his own operator, leaving the care of the machinery to the customer.

SERVICE

J.J. Curran has always understood that service to our customers is our most important objective. We continually strive to improve the level of service we provide, no matter which fleet or aspect of our company you may be dealing with. We understand the importance of a timely delivery, and provide our customers an exceptionally quick response in emergency situations. At J.J. Curran we are proud of our contributions to the development of the Detroit area including Joe Louis Arena, Ford Field, and Somerset mall to name a few.

Our affiliate company "Fleet Cost and Care" provides us with a modern software system that manages our fleet and allows us to produce and track the daily information needed to operate extremely efficiently.

EQUIPMENT SERVICE

J.J. Curran offers equipment maintenance and service. We specialize in annual inspections and hydraulic equipment maintenance. Our technicians are safety trained and certified and have access to many secured sites in the Detroit area. For more information contact our Equipment Maintenance Supervisor.

AFFILIATE COMPANIES

Curran Lifting Systems was formed in 1988 and supplies our fleet of mobilifts. Our mobilifts are specially designed to pick and carry up to 50 tons in a confined space.

Established in 1994, Fleet Cost & Care is a software development, training and support company. Its products were developed to specifically meet the needs of businesses requiring total fleet management in the construction and equipment rental industries. The software is designed to schedule and track personnel, vehicles and equipment, as well as for those companies requiring an extensive fleet service and preventative maintenance capability. For more information please visit [www.fleetcostcare.com](http://www.fleetcostcare.com).

Safety is our first concern at J.J. Curran Crane Company. We are dedicated to the most elite operator certification programs available. Our operators attend classes, take written tests and participate in actual hands-on crane operation tests through the Operating Engineers Local 324.

We participate in the MUST Safety Program, which provides standardized drug and alcohol testing and awareness training. The safety awareness training includes 18 modules based on topics from OSHA 30-Hour Outreach Training Program.

We also comply with site specific safety training as required by our customers. Our employees have completed the safety training at some of the most safety intensive sites in southeast Michigan. In addition to the 18 training modules by MUST our employees participate in 12 other customer programs.

In addition, J.J. Curran Crane is committed to the National Commission for the Certification of Crane Operators (NCCCO). A third party certification program recognized by OSHA and ANSI requirements for crane operator competency.

- Exceptional safety record
- Excellent EMR rating
- Company safety manual
- Certified by MUST
- Committed to the NCCCO
- Participate in site specific safety training
- Members of the Operating Engineers Local 324

“ . . . rest in peace if you are worried about the upcoming lift at your facilities. . . The gentlemen that worked the lift had every concern that I would have as if it were their own. I can only say thank you for the quality work and pro-active approach you take on every job.

- Jerry Kupser, Superintendent of T&D,  
Wyandotte Electrical Department

**Customer:** Oscar J. Boldt Construction  
**Project:** Noble Thumb Wind Park Phase I  
**Location:** Ubly, Michigan  
**Equipment:** LinkBelt RTC80100, Grove RTC890E

J.J. Curran Crane's Link-Belt RTC80100 and Grove RTC890E were contracted by Oscar J. Boldt Construction and headed to Ubly, Michigan to aid in the erection and assembly of the Noble Thumb Wind Park phase I. A total of 46 turbines were erected and are expected to generate 69 megawatts of energy, enough to power approximately 20,000 homes.

**Customer:** Hardman Construction Inc.  
**Project:** Beach-Garland Road Bridge  
**Location:** Flint, Michigan  
**Equipment:** Krupp KMK 8500

The 500 Ton Krupp was used to place thirteen 93 ft. long, 77,000 lb. precast concrete beams using 115 feet of luffing jib with a radius of 100 feet. The beams support a new road spanning the Flint River.

**Customer:** Carl Nielbock, C.A.N. Art Handworks, Inc.  
**Project:** Indian Village Centennial Village Gazebo  
**Location:** Detroit, Michigan  
**Equipment:** Liebherr LTM1100

A 120 ton Liebherr was contracted to set a hand made gazebo in Detroit's historic neighborhood, Indian Village. The tree-lined residential street proved to be an obstacle but with a radius of 135' the Liebherr did not have a problem placing the 3,000 pound piece of art.
