IT'S NOT LUCK, IT'S KNOW HOW™

J.J. Curran Crane Company has been in the crane and lifting equipment business since **1950**. We have worked diligently to provide the highest quality service, the most complete fleet of equipment, and a staff of professional and helpful personnel.

J.J. Curran Crane offers a **complete selection** of hydraulic cranes from the 8 ton carry deck models to the 300 ton capacity truck crane. We can also supply you with everything in between, including, a fleet of all-terrain machines from 22 to 300 tons, and rough terrain cranes from 5 to 100 tons.

In addition, J.J. Curran Crane offers a full range of equipment that includes mobilifts, boom trucks, and shooting boom forklifts. If your company's needs require multiple types of equipment, you can satisfy all of your needs with **one call** to J. J. Curran Crane Company.

Our affiliate company "Fleet Cost and Care" provides us with a state of the art software system that **manages our fleet** and allows us to produce and track the daily information including an extensive fleet service and **preventative maintenance** capability.

- Family owned and operated since 1950
- Quality, modern equipment - Grove, Liebherr & LinkBelt
- All Terrain and Truck Cranes to 300 Tons
- Self Propelled to 100 Ton
- Schedule and maintain equipment with NexGen FMS by Fleet Cost & Care

Project Profiles

Customer: Oscar J. Boldt Construction
Project: Noble Thumb Wind Park Phase I
Location: Ubly, Michigan
Equipment: LinkBelt RTC80100, Grove RTC890E
Cranes on Site: July, 2008 – November, 2008

It was a windy summer and fall for two of J.J. Curran Crane's large rough terrain cranes. The Link-Belt RTC80100 and Grove RTC890E were contracted by Oscar J. Boldt Construction and headed to Ubly, Michigan to aid in the erection and assembly of the Noble Thumb Wind Park phase I. A total of 46 turbines were erected and are expected to generate 69 megawatts of energy, enough to power approximately 20,000 homes.

Customer: M.A. Mortenson Co.
Project: Prince Wind Park
Location: Sault Ste. Marie, Ontario
Equipment: LinkBelt RTC80100
Cranes on Site: May, 2006 – September, 2006

M.A. Mortenson Co. contracted J.J. Curran Crane to work in the Prince Wind Park, in Sault Ste. Marie, Ontario. A 100 Ton LinkBelt rough terrain crane assisted in the erection of wind turbines. The project consists of 126 GE Energy 1.5-megawatt wind turbines.

Customer: M.A. Mortenson Co.
Project: Camp Grove Wind Farm
Location: Camp Grove, Illinois
Equipment: LinkBelt RTC80100
Cranes on Site: October, 2006 - August, 2007

J.J. Curran Crane assisted M.A. Mortenson Co. in the wind turbine erection at the Camp Grove Wind Farm in Camp Grove, IL. The 100 Ton Link-Belt rough terrain crane was the crane of choice for the project consisting of 100 turbines combining to produce enough energy to supply energy to approximately 45,000 households annually.

Customer: M.A. Mortenson Co.
Project: Smokey Hills Wind Farm
Location: Lincoln, Kansas
Equipment: LinkBelt RTC80100
Cranes on Site: May, 2006 – October, 2008

J.J. Curran's 100 ton Link-Belt rough terrain crane was contracted to assist in the erection of the wind turbines on M.A. Mortenson's Smokey Hills Wind Farm project that has the capacity to supply power to approximately 30,240 households annually.
